SUMMARY

I am a Full Stack Developer with one year of hands-on experience, initially focusing on Python backend development and later expanding into full-stack work. Skilled in building responsive web applications using React, TypeScript, and modern backend frameworks such as Django, Node.js, and FastAPI. Experienced in database management with PostgreSQL and MongoDB, containerization with Docker, and cloud deployment on AWS.

Known for writing clean, maintainable code and collaborating effectively in team environments. Completed an internship at Monobank and worked on freelance and personal projects, including chatbots and e-commerce applications. Continuously improving technical skills and exploring new tools to deliver efficient, scalable solutions.

Tech stack: React, JavaScript, TypeScript, Python, Node.js, Django, FastAPI, PostgreSQL, MongoDB, Docker, AWS, Git, CI/CD.
